WORK SESSION

5. Discussion and Presentation of the City of Brenham Parks, Recreation and Open Spaces Master Plan for 2015 through 2025

Community Services Director Wende Ragonis presented this item. Ragonis stated that at the direction of the Parks Advisory Board, Community Services along with Parks and Recreation staff developed the 2015 - 2025 Parks, Recreation and Open Spaces Master Plan for the City of Brenham. Ragonis noted that City staff partnered with Texas State University to complete the master planning process. Ragonis explained by working with an academic intuition, costs were minimized and many tasks were performed by existing City resources. Ragonis stated that Dr. Jo An Zimmermann, Ph.D., CPRP of Texas State University has guided the Parks Advisory Board and City staff throughout the process as the parks and recreation industry expert.
Ragonis noted that funding for this project was provided by the Brenham Community Development Corporation (BCDC) at their January 23, 2014 regularly scheduled meeting in the amount of $5,000.00. The master planning process began with the following goals:

- Reconfirm the Parks & Recreation Vision, Mission and Goals.
- Create a National Recreation Parks Association (NRPA) PRORAGIS Profile to utilize industry standards to benchmark performance.
- Create an Asset Map detailing existing park and recreational opportunities in the area.
- Gather an understanding of demographics and community needs.
- Assess the data gathered to define goals and priorities to meet the dynamic needs of the community.
- Develop a comprehensive Master Plan to guide the parks system for the next ten years while incorporating flexibility in responding to unique opportunities as they arise.

Ragonis explained that in addition to these goals, staff has taken great care to draft a document which meets the criteria published by the Texas Parks and Wildlife Department (TPWD) to ensure the City of Brenham is favorably positioned to receive grant funding from TPWD. Ragonis noted the TPWD offers various types of grants and assistance programs to municipalities; and to be competitive for grant and assistance opportunities, municipalities must have a Master Plan that is 1) compliant with TPWD requirements and 2) adopted by its Council.

Dr. Jo An Zimmermann, Ph. D., CPRP of Texas State University gave a presentation and presented a slide show. Dr. Zimmermann noted that they have developed an excellent plan and there was six community input meetings in order to get feed back. Zimmermann explained that the City should not duplicate its services and should maximize the resources that are already here. Zimmermann also noted that the City should work with Brenham Independent School District and use some of their buildings to offer evening classes such as a visual arts class or to possibly build a recreation center.

6. Discussion and Presentation Regarding City and Non-City Sponsored Special Events in Downtown and Other Areas Within the City

City Secretary Jeana Bellinger presented this item. Bellinger explained that since January, her office has received six (6) requests for special events from non-City organizations. Bellinger stated these events include walks, runs, parades and street dances. Bellinger stated that while discussing the various requests with staff, it was recommended that a work session be held to discuss how Council would like to handle special events in Brenham (whether they are in the downtown area or in other areas of the City).

Bellinger stated each year the City hosts approximately 10 events; however, her office also processes requests from other organizations for their events. Bellinger stated the non-city hosted events have included things such as the Celebration of the Feast of Guadalupe (walk), the Blue Bell Fun Run (5K run), St. Mary’s 100 Days of Summer (festival) and D&S Community Services Fun & Field Day Event (walk). Bellinger’s office also handles all parade permits; in 2014, downtown was host to 7 different parades (only 1 was city hosted).
Bellinger noted that in receiving an application for a special event, her office forwards the request to other city departments that may be affected upon approval of the request. Bellinger stated those departments include Police, Fire, Streets, Sanitation, Utilities, Maintenance, and Code Enforcement. Bellinger stated that once reviewed by the necessary departments, she advises the requestor of their events approval or denial.

Bellinger explained that at this time, the only revenue generated by the City for special events is the cost of the permit: $10. Bellinger noted that in reviewing other cities in our area, it seems that every city handles special events differently; however, each of the cities she researched charge amounts ranging from $100-$500 for the permit alone and many of them require security deposits, bonds and insurance.

Bellinger stated during the Work Session she would be asking for Council direction on the various special event requests that have already been submitted and how to handle future requests. Bellinger noted that due to a March 28th event date, please note that Item 10 (street closure) and Item 11 (noise variance) on the agenda are directly related to requests for special events.

City Attorney Cary Bovey explained that any asset that the city has, whether it is streets or property, there is a liability concern. Bovey noted that some cities require organizations to have a certain amount of insurance to cover accidents. Bovey stated that he would check into a Special Events Rider through Texas Municipal League.

Councilmember Barnes-Tilley stated that she believes that the permit fees should be increased and the Council needs to be consistent in what they are charging and to whom.

Councilmember Goss noted that he does not think the Council should have to pick what organizations will do what, but he also does not think the City should have to support every non-sponsored City function. Goss stated that the City has very nice parks and facilities and those places could be used by those organizations.

Community Services Director Wende Ragonis explained that her department loves to have non-city sponsored events in the downtown area because they have a positive economic impact, but she also realizes that it is a lot of work for staff and that it does get costly for the City.

Councilmember Ebel noted that he likes the idea of having fees for non-sponsored city events and that all organizations would be required to have insurance.

Mayor Tate noted that while some events have the purpose of making money, he feels that some of the parades are purely for the public and that there needs to be separate fee amounts for parades and larger things like dances. Tate explained that everyone should come up with an idea of a fee schedule and that the item should be brought back to Council.
   Amending Ordinance No. O-12-020, Section 1, to Revise Certain Regulations
   Applicable to the Ralston Creek Estates Planned Development District

   Development Services Manager Erik Smith presented this item. Smith explained that
   there were several minor changes to the Ordinance requested by the City Attorney and that is
   why this item is back on the regular agenda.

   A motion was made by Councilmember Herring and seconded by Councilmember Ebel
   to approve Ordinance No. O-15-006 as presented on its second reading amending Ordinance No.
   O-12-020, Section 1, revising certain regulations applicable to the Ralston Creek Estates Planned

   Garry Kimball, of Specialized Public Finance, presented this item. Kimball presented
   information related to the opportunity to advance refund a portion of the City’s 2010 Pass-
   Through Toll Revenue and Limited Tax Bonds. Kimball explained that the City would issue
   approximately $4,300,000 in Series 2015 General Obligation Refunding Bonds and would
   recognize about $243,974 in savings. Kimball explained that he was very pleased with the
   transaction and hoped that Council will approve.

City Secretary Jeana Bellinger presented this item. Bellinger explained that at the February 5th council meeting the ordinance calling the May 9, 2015 Special Charter Amendment Election was approved by the City Council on its first reading. Bellinger stated that since that time, she and the City Attorney have made several revisions to the Ordinance to assure that it addresses each of the 23 Propositions accurately and provides the appropriate ballot wording.

Bellinger explained that due to the length of the ordinance and the time it has taken to carefully review each Proposition, the ordinance is not included in the agenda packet. Ogle explained this grant program is administered by the Texas Department of Agriculture and their priority is to assist in construction and/or rehabilitation of water and sewer facilities within an area populated primarily by residents that are low to moderate income; Ogle advised the Council that the City of Brenham meets the requirements to qualify for this grant program.
