6. Proposed Tax Rate of $0.5070 per $100 Valuation for Fiscal Year Beginning October 1, 2016 and Ending September 30, 2017

Assistant City Manager-Chief Financial Officer Carolyn Miller presented this item. Miller advised a property tax rate of $0.5070 per $100 valuation is proposed. Miller stated that $0.3150 will be for maintenance and operations and the balance of $0.1920 will be for debt service.

Miller explained that the increase in property taxes will cover the addition of three new firefighters and provide resources for street paving.

Miller advised that as outlined in the Property Tax Code, the Council must hold two public hearings to receive citizen comments on the proposed property tax rate. Miller stated that at each hearing, the Council must announce the date, time, and place of the meeting at which they will vote on the tax rate.

Citizen Danny Ross, a resident on Chappell Hill Street, addressed the Council and questioned why the City needs additional firefighters.

Mayor Tate announced that the first reading of the Ordinance to adopt the tax rate will be during a Special Council meeting on Monday, September 12, 2016 at 8:00 a.m. at City Hall, located at 200 W. WORK SESSION

7. Presentation of the 2015 Municipal Court Statistics

Municipal Court Administrator Rhonda Kuehn presented this item. Kuehn reviewed the report and advised that from October 2015 through June 2016 there have been 5,305 cases filed. Kuehn noted that the total number of cases filed in FY15 was 6,746.

Councilmember Goss asked if most of the tickets issued are for people that live out of town. Kuehn stated that most of the tickets that are written are to out of town addresses.

Councilmember Williams questioned why the number of juvenile activity has decreased. Kuehn reported that the numbers are down due to changes in the state law and more responsibilities have been placed on Brenham I.S.D.

Councilmember Barnes-Tilley asked if all juvenile cases still get reviewed by the City Prosecutor. Kuehn stated that they do.
Assistant City Manager – Chief Financial Officer Carolyn Miller presented this item. Miller explained that the highlights of the FY2015-16 budget amendment included the following revenue increases: General Fund revenues for insurance proceeds and Parks Capital Improvements Fund revenue for a donation received for a planned park development project, along with advertising revenue for Fireman's Park outfield wall signage.

Miller advised that General Fund expenditures are also being increased due to expenses related to a state softball tournament and for unanticipated expenses from the repair of an airport runway light. Other expenditure increases include: additional materials for the Belle Towers drainage project, allocation of funds for the advertising and promotion for the Simon Conference Center, BCDC Fund payment to Economic Development Foundation for local match of grant, purchase of a replacement police vehicle in the Equipment Fund, and Parks Capital Improvement Fund expenditures related to a planned park development project connecting Fireman's Park and the Nancy Carol Roberts Memorial Library. Miller stated that expenditures are being decreased in the City Hotel Occupancy Tax Fund due to the transfer of contingency funds to the General Fund for the state softball tournament.

Miller advised that other budget amendment items included: insurance proceeds to cover the cost of a replacement police vehicle from the General Fund to the Streets and Equipment Fund, additional funding approved for the state softball tournament from the City Hotel Occupancy Tax Fund to the General Fund, additional materials and City in-kind labor and equipment for the Belle Towers drainage project from the General Fund to the Streets and Drainage Fund, and the allocation of HOT funds for the marketing and promotion of the Simon Conference Center from the City Hotel Occupancy Tax Fund to the new Simon Conference Center Fund.

9. **Discuss and Possibly Act Upon Resolution No. R-16-022 Expressing Official Intent to Reimburse Certain Costs Related to the Furnishing and Equipping of the Expanded and Renovated City Library**

Assistant City Manager – Chief Financial Officer Carolyn Miller presented this item. Miller explained that as the expansion/renovation project at the Nancy Carol Roberts Memorial Library nears completion, Council has approved the purchase of shelving systems and furnishings from several vendors using numerous purchasing cooperative and award of competitive bids. Miller explained that rather than pursuing a traditional lease option, Staff has been working with Bank of Brenham, the City’s depository bank, to secure financing for the capital purchases. Miller explained that Staff is proposing this financing structure since there are multiple vendors and invoices, multiple pieces of shelving systems and furnishings, various shipment dates over several months which would provide opportunities for confusion and errors.

Miller advised that Staff is asking Council to approve the Reimbursement Resolution today to give Staff time to finalize this financing option to bring back to Council for formal approval at the September 1st Council meeting. Miller stated that approval of the Reimbursement Resolution will allow the City to pay any vendor invoices that might come due before the financing arrangement is approved by Council and then the City could reimburse ourselves from the loan proceeds.

A citizen questioned if it is only the City funding the cost of the library or does the County contribute as well. Miller stated that the City is funding the cost of the library; however, 44% of the total costs are being provided by private donations. The citizen also asked if the City has gone over budget on the library and animal shelter. Miller stated that $190,000 is needed to complete the library and that money will come out of this year’s budget. Miller advised that the animal shelter has needed $62,000 of additional money over and above bonds and private donations.

A motion was made by Councilmember Barnes-Tilley and seconded by Councilmember Herring to approve Resolution No. R-16-022 expressing official intent to reimburse certain costs related to the furnishing and equipping of the expanded and renovated city library.
Mayor Tate called for a vote. The motion passed with Council voting as follows:

10. Discuss and Possibly Act Upon an Ordinance on Its First Reading Amending Chapter 21, Signs, of the Code of Ordinances of the City of Brenham Regarding the Regulation of Billboards

Development Services Manager Erik Smith presented this item. Smith advised that Staff was approached by SignAD Outdoor who made a presentation to City Council on April 28, 2016 to ask about possibly amending the billboard ordinance to be more favorable to their business. Smith explained that Staff also held a workshop meeting with the Board of Adjustment to give the public ample opportunity to express their concerns. Smith stated that they received some concerns from the public related to digital signs not billboards.

Smith explained that the proposed ordinance would allow the City to remove billboards that are not maintained or have discontinued advertising for more than 120 consecutive days. Smith stated the ordinance also has a provision allowing staff to pursue removing the sign if it’s repair or reconstruction exceeds sixty percent (60%) of the costs to erect a new sign.

WORK SESSION

8. Discussion and Presentation of Main Street Initiatives

Director of Community Services Wende Ragonis presented this item. Ragonis explained that Staff wanted to provide an update on various Main Street initiatives from two sub-committees from the Main Street Advisory Board: 1) the Economic Restructuring Committee (ERC) and 2) the Planning Committee.

Ragonis stated that in September of 2015, Staff brought these two committees together for a series of joint meetings. At the first joint meeting, three strategic priorities were identified: 1) attract more downtown lodging development, 2) seek the ownership of TX DOT right of way and 3) improve the relationship with the key downtown stakeholders. Ragonis explained that Staff has looked to several development industry experts to either speak via video or in person at some of these joint meetings. Ragonis stated that the recurring themes presented by these experts include: 1) downtown needs more lodging within walking distance to support the new conference center destination, 2) the transportation flow should create prosperity in downtown by reducing speeds and increasing pedestrian safety, 3) public investment in streetscapes and infrastructure encourage density in the area, 4) the downtown district is historically authentic and should be preserved and 5) all agree that the downtown economy is essential to the strength of the overall local economy of the area.
Ragonis stated that based upon the past months of strategic planning, visioning and research the committees have taken on specific tasks. The ERC Committee is drafting an incentive guideline which will support both new and existing buildings and business owners in the downtown district. The Planning Committee is evaluating the feasibility of implementing changes to the zoning and proposed districts which are identified in the Downtown Master Plan.

AGENDA ITEM DESCRIPTION: Discussion and Presentation on the Current Zoning Ordinance and Possible Future Planned Development District Projects

SUMMARY STATEMENT: City staff has been working with Stylecraft Builders for the past few months on a possible future project for a tract of land that is currently in the City’s Extra Territorial Jurisdiction “E.T.J.” Because of a development agreement in place for the tract of land any development, which would include platting, would trigger the voluntary annexation process. Upon annexation the property’s initial zoning designation would be R-1 Single Family Residential.

Stylecraft has inquired about a couple of different possible options for their project to make it feasible. One of those options is looking at creating a Planned Development which is a possibility for them but they would have to go through the zoning amendment process to accomplish this goal.

The second option is looking at zoning classifications in general. A question came up during this process as to when the last time a more thorough zoning ordinance review had taken place. Going back through records 1995 was the last time a zoning ordinance amendment of significance has taken place. The 1995 ordinance is what we use currently. The question came up as to whether or not this needs to be looked at to address current developmental trends and if we want to consider any ordinance amendments to adjust to those.

**AGENDA ITEM DESCRIPTION:** Discuss and Possibly Act Upon the Purchase of a Haul Truck Using BuyBoard Contract No. 430-13, for the City of Brenham’s Sanitation Department and Authorize the Mayor to Execute Any Necessary Documentation.

**SUMMARY STATEMENT:** During the 2016-17 budget process the Sanitation Dept. requested a replacement haul truck for their fleet. This replacement was part of the 10 yr. capital improvement plan. This truck will replace a 1995 haul truck that has been a part of our fleet for 21 yrs. and has made an estimated 10,000+ trips to the landfill. These trucks are used daily to transport waste from the Brenham Transfer Station to the landfill in Altair, TX.

Staff has evaluated 3 different types of trucks and have all agreed that the Kenworth T880 will be suitable for the rough conditions in which the trucks will operate. We also looked at the Freightliner and International units. Our maintenance team and the sanitation staff are all comfortable with the Kenworth T880. We have also checked with other Transfer Stations throughout the state and we were very satisfied with how well these trucks have held up with like conditions compared to some of the other units. This truck is built to withstand the rough terrain of landfill conditions.

The truck can be purchased from Performance Truck of Bryan, TX under BuyBoard Contract No. 430-13. The value of the unit is $119,875. This includes the wet kit and will be road ready when received. The budgeted amount was $120,000. Delivery of the unit once ordered is expected to be within 10 days of order. It is very important that we get this truck ordered as beginning October 1st we are now receiving 100% of the commercial waste from Progressive Waste Solutions that is generated in Brenham. This will add revenue to the Transfer Station but will also increase the amount of runs that we make per year. To have a replacement at this time is essential.

Staff will place the old unit on Govdeals and is expected to receive $4,000-$6,000 based on past history.

We would like to recommend that council allow staff to purchase this 2017 Kenworth Haul truck through the buy board local government purchasing cooperative for $119,875.00.

AGENDA ITEM DESCRIPTION: Discuss and Possibly Act Upon the Purchase of Three (3) Mowers Using BuyBoard Contract No. 447-14, for the City of Brenham’s Parks Department and Authorize the Mayor to Execute Any Necessary Documentation

SUMMARY STATEMENT: During the 2016-17 budget process the Parks Department requested the replacement of three mowers, these being a 10’ rotary mower, a 6’ rotary mower, and an 8’ reel mower. These replacement mowers were part of the 10 yr. capital improvement plan and actually have been pushed back several years prior to the budget process. These mowers will replace similar units which are approaching 20 years old with the exception of the reel mower which is 10 years old and currently has 3310 hours on it. The rotary mowers are used weekly and the reel mowers are used daily. Rotary mowers are used to cut the open park spaces and discharge the clippings back onto the ground as a residential unit does. The reel mowers are used to cut athletic fields and have many blades that cut the grass at 7/8” height which provides a pristine playing surface for soccer, football and baseball.

These replacement mowers are TORO mowers and we have had very good luck with them for many years. Our fleet consists of TORO mowers for which our mechanic is knowledgeable on repairs and can order parts from one vendor. The BuyBoard price sheet is attached from Professional Turf Products L.P which has the breakdown of each mower. The total of the three mowers total $151,122.47. The total amount budgeted was $153,000. Expected delivery time is between 30-45 days after order is placed.

Staff will place the old units on Govdeals and based on past history values range from $1200-$1800 per unit

We would like to recommend that council allow staff to purchase these mowers for the Parks Department through the BuyBoard local government purchasing cooperative for $151,122.47.

**AGENDA ITEM DESCRIPTION:** Discuss and Possibly Act Upon the Purchase of a Scoreboard Using BuyBoard Contract No. 423-13, for the Baseball Field Located in Fireman’s Park and Authorize the Mayor to Execute Any Necessary Documentation

**SUMMARY STATEMENT:** During the 2016-17 Brenham Community Development Corporation budget process the Parks Department ask BCDC to support the purchase of a new scoreboard for Fireman’s Park. Attached you will see a rendering of the new scoreboard which was designed by Nevco Inc. This scoreboard will be 32’ x 15’ which will basically be the same as the current board but with the trusses and wording on the top will make it appear slightly larger. The current scoreboard was put into place in 2004. Parts of the scoreboard have faded causing it to become unsightly and the components have begun to fail when it comes to consistently operating. Last year we spent several thousand dollars upgrading the components in order to keep it operating on a more consistent basis.

The new scoreboard will be LED and will be able to be controlled digitally throughout the park. It will have a day clock, the “Fireman’s Park” name on the top, red/amber LED lights and customizable team names. This purchase will be split between the BCDC and the money that was raised over the last 2 years with the Fireman’s Park Advertising Program. BCDC has agreed to fund $35,000 and $26,000 will come from the advertising program. The total price is $60,983 and is a turn-key installation.

The scoreboard is used during Brenham Cub baseball games, Little League Tournaments and Select Ball Tournaments. We have spoken with the Brenham Baseball Alumni, Coach Williams and all are agreeable on the design.

We would like to recommend that council allow staff to purchase this scoreboard from Nevco Inc. in the amount of $60,983 for Fireman’s Park through the buy board local government purchasing cooperative.

**STAFF ANALYSIS (For Ordinances or Regular Agenda Items):**
- **A. PROS:** Great looking scoreboard, LED lighting system, remote control options and a lot more versatility
- **B. CONS:** None that we know of.

INVESTMENT POLICY

I. POLICY

It is the policy of the City of Brenham that all available funds shall be invested in conformance with these legal and administrative guidelines with consideration for anticipated cash flow requirements and consideration of the safety and risk of investments. The City shall seek to optimize interest earnings to the extent possible based on these risk parameters.

Effective cash management is recognized as essential to good fiscal management. Investment interest is a source of revenue to City of Brenham funds. The City of Brenham’s investment portfolio shall be designed and managed in a manner designed to obtain the highest reasonable earnings from this revenue source, to be responsive to public trust, and to be in compliance with legal requirements and limitations.

Investments shall be made with the primary objectives of:

- **Safety** and preservation of principal
- Maintenance of sufficient **liquidity** to meet operating needs
- Diversification to avoid concentrated risk
- **Public trust** from prudent investment activities
- Optimization of **interest earnings** on the portfolio

The Investment Policy addresses the methods, procedures and practices that must be exercised to ensure effective and judicious fiscal management of the City of Brenham’s funds. This Policy serves to satisfy the statutory requirements of the Public Funds Investment Act, the “Act”, (Texas Government Code, Chapter 2256) in defining and adopting a formal investment policy and strategy. The policy and strategy shall be reviewed by the Audit / Investment Committee and adopted by resolution of the City Council no less than annually. Any modifications to the Policy will be noted in the written resolution.
II. SCOPE

This Investment Policy shall govern the investment of all financial assets of the City of Brenham. These funds are accounted for in the City of Brenham’s Comprehensive Annual Financial Report (CAFR) and include:

- General Fund
- Special Revenue Funds
- Capital Projects Funds
- Enterprise Funds
- Trust and Agency Funds, to the extent not required by law or existing contract to be kept segregated and managed separately
- Debt Service Funds, including reserves and sinking funds, to the extent not required by law or existing contract to be kept segregated and managed separately
- Brenham Community Development Corporation Funds
- Internal Service Funds
- Self-Insurance Funds
- Any new fund created by the City of Brenham, unless specifically exempted from this Policy by the City Council or by law.

The City of Brenham may consolidate cash balances from all funds for investment purposes and efficiencies. Investment income will be allocated to the various funds based on their respective participation and in accordance with generally accepted accounting principles. The consolidated portfolio will address the varying needs, goals, and objectives of each fund.

This Investment Policy shall apply to all transactions involving the financial assets and related activity for all the foregoing funds. However, this Policy does not apply to the assets administered for the benefit of the City of Brenham by outside agencies or under deferred compensation programs.

III. INVESTMENT OBJECTIVES

The City of Brenham shall manage and invest its cash with five primary objectives, listed in order of priority: safety, liquidity, diversification, public trust, and yield. The safety of the principal invested always remains the primary objective. All investments shall be designed and managed in a manner responsive to the public trust and consistent with state and local law.

The City of Brenham shall maintain a comprehensive cash management program, which includes timely collection of account receivables, vendor payments in accordance with invoice terms, and prudent investment of funds. Cash management is defined as the process of managing monies in order to ensure cash availability and reasonable market earnings on the City’s assets.
INVESTMENT POLICY

SAFETY

Safety of principal is the foremost objective of the investment program. Investments of the City of Brenham shall be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio. Competitive bidding and perfected ownership of investments will be in place at all times. The objective will be to mitigate credit and interest rate risk. Each investment transaction shall be conducted in a manner to control the risk of capital loss by investing in high credit quality securities.

- Credit Risk – The Entity will minimize credit risk, the risk of loss due to the failure of the issuer or backer of the investment, by:
  - Limiting investments to the highest credit quality investments
  - Pre-qualifying the financial institutions and broker/dealers with which the City of Brenham transacts business
  - Perfecting City ownership by delivery versus payment settlement, and
  - Diversifying the investment portfolio so that potential credit or market risk is minimized.

- Market Risk – the City will minimize the risk from interest rate volatility by:
  - Structuring the investment portfolio to meet cash requirements for ongoing operations, thereby avoiding the need to liquidate investments prior to maturity.
  - Investing operating funds in laddered securities and maintaining a liquidity portion to cover unanticipated expenses.

LIQUIDITY

The City of Brenham investment portfolio shall be structured in a ladder of maturities to match expected liabilities along with a liquidity portion to meet unanticipated liabilities. Securities will have active secondary markets.

PUBLIC TRUST

All participants in the City of Brenham’s investment process shall seek to act responsibly as custodians of the public trust. Investment officers shall avoid any transaction that might impair public confidence in the City of Brenham’s ability to govern effectively.

DIVERSIFICATION

The portfolio will be diversified by market sector and maturity based on the cash flow and risk tolerances of the City.

YIELD

The City of Brenham investment portfolio shall be designed with the objective of attaining a reasonable market yield throughout budgetary and economic cycles, taking into account the City’s investment risk constraints and the cash flow characteristics of the portfolio. Yield is secondary to the safety and liquidity objectives described above.
INVESTMENT POLICY

Based upon the cash flow of the City the maximum dollar-weighted average maturity of the consolidated portfolio shall be six months. The benchmark used to determine whether reasonable yields are being achieved shall be the six month U.S. Treasury Bill.

IV. INVESTMENT STRATEGY

The City of Brenham maintains a consolidated portfolio which is designed to address the unique characteristics of the fund groups represented in the portfolio.

Operating Funds: The primary objective for operating funds is to assure anticipated cash flows are matched with adequate investment liquidity. The secondary objective is to create a portfolio structure which will experience minimal volatility during economic cycles. This may be accomplished by purchasing high credit quality, short to medium term securities in a laddered structure. The maximum dollar weighted average maturity of six months reflects the expenditure cash flow of operating funds and will be calculated using the stated final maturity dates of each security.

Capital Project Funds: Funds for capital projects or special purposes should be invested based on anticipated cash flows and allow for flexibility and unanticipated project outlays. At no time will the stated final maturity dates of investments exceed the estimated project completion date on capital project funds.

Debt Service Funds: Debt service funds shall be invested with the primary objective of funding debt service obligations on the required payment date. Priority will be given to funding the next debt service due before any extensions are made in the funds.

Debt Service Reserve Funds: Debt Service Reserves should be invested to generate a dependable revenue stream from securities with a low degree of volatility. Securities should be short to medium term maturities and of high credit quality.

The City primarily utilizes a passive “buy and hold” portfolio strategy. Maturity dates are primarily matched with cash flow requirements and investments are purchased with the intent to be held until maturity. However, investments may be liquidated prior to maturity for the following reasons:

- An investment with declining credit may be liquidated early to minimize loss of principal.
- Cash flow needs require that the investment be liquidated.
- Market conditions present an opportunity to benefit from the trade.
INVESTMENT POLICY

V. RESPONSIBILITY AND CONTROL

CITY COUNCIL RESPONSIBILITIES

The City Council, in accordance with the Act, shall:
- Designate Investment Officers by resolution
- Receive and review quarterly investment reports
- Annually review and approve the City’s broker/financial institution certification list — As noted in Section VIII, the governing body has designated this responsibility to the Audit & Investment Committee
- Review and adopt the investment policy and strategy at least annually
- Provide for investment training for investment officers

INVESTMENT OFFICERS

The Chief Financial Officer and the City Manager are hereby designated as “Investment Officers” pursuant to the Act. Investment Officers are delegated authority to invest the funds on behalf of the City and such authorization shall remain in effect until rescinded by the City Council or until the Officer resigns or is terminated. The Investment Officers are authorized to execute investment transactions on behalf of the City. No person may engage in an investment transaction or the management of City of Brenham funds except as provided under the terms of this Investment Policy as approved by the City Council.

Investment Officers shall:
- Obtain training as defined by the Act and this Policy
- Prepare, sign, and submit quarterly investment reports to Council
- Maintain compliance files on all counter-parties (brokers) and provide the list for Council approval at least annually
- Provide for competitive bidding
- Disclose personal business relationships in accordance with policy
- Maintain full and complete records of the City’s portfolio and transactions.

QUALITY AND CAPABILITY OF INVESTMENT MANAGEMENT

The Investment Officers shall obtain training in investments. The seminars should be offered by professional organizations, associations, and other independent sources approved by Council. The training is to insure the quality and capability of investment management in compliance with the Act.

In accordance with the Act, the designated Investment Officers shall attend 10 hours of investment training session within 12 months of their designation and every successive two fiscal years shall attend eight hours of training. A newly appointed Investment Officer must attend a training session of at least 10 hours of instruction within twelve months of the date the officer took office or assumed the officer’s duties. For purposes of this policy, an “independent source” from which investment training shall be obtained shall include a professional organization, an institution of higher education or any other sponsor other than a business organization with whom the City of Brenham may engage in an investment transaction.
**INTERNAL CONTROLS**

The Chief Financial Officer is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the City are protected from loss, theft, or misuse. The internal control structure shall be designed to provide reasonable assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

The Chief Financial Officer shall establish a process for a compliance audit on policies and procedures. The internal controls shall address the following points at a minimum.

- Control of collusion.
- Separation of transactions authority from accounting and record keeping.
- Custodial safekeeping.
- Clear delegation of authority to subordinate staff members.
- Written confirmation for all transactions for investments and wire transfers.
- Review of wire transfer agreements with the depository bank or third party custodian.
- Review of compliance with the Act and this Policy.

The Chief Financial Officer shall monitor, on no less than a monthly basis, the credit rating on all authorized investments in the portfolio based upon independent information from a nationally recognized rating agency. If any security falls below the minimum rating required by Policy, the Investment Officer shall notify the City Manager of the loss of rating, conditions affecting the rating and possible loss of principal with liquidation options available, within three days after notification of the loss of the required rating.

**PRUDENCE**

The standard of prudence to be applied to all transactions shall be the “prudent person rule”. This rule states that “Investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived.”

In determining whether an Investment Officer has exercised prudence with respect to an investment decision, the determination shall be made taking into consideration:

- The investment of all funds, or funds under the City’s control, over which the Officer had responsibility rather than a consideration as to the prudence of a single investment.
- Whether the investment decision was consistent with the written approved Investment Policy of the City.
INVESTMENT POLICY

INDEMNIFICATION

The Investment Officer, acting in accordance with written procedures and exercising due diligence, shall not be held personally liable for a specific investment’s credit risk or market price changes, provided that these deviations are reported immediately and the appropriate action is taken to control adverse developments.

ETHICS AND CONFLICTS OF INTEREST

All participants in the investment process shall seek to act responsibly as custodians of the public trust. Investment officers shall avoid any transaction that might impair public confidence in the City’s ability to govern effectively. Officers and employees involved in the investment process shall refrain from personal business activity that would conflict with the proper execution and management of the investment program, or that would impair their ability to make impartial decisions.

Council members, employees and Investment Officers shall disclose to the Texas Ethics Commission and the City Manager, and the City Manager discloses to the City Council if:

a) The officer has a personal business relationship with a business organization offering to engage in an investment transaction with the City; or
b) The officer is related within the second degree by affinity of consanguinity, as determined under Chapter 573 of the Texas Government Code, to an individual seeking to transact investment business with the City; or
c) The officer has any material interests in financial institutions with which they conduct business; or
d) The officer has any personal financial/investment positions that could be related to the performance of the investment portfolio.

Employees and officers shall refrain from undertaking personal investment transactions with the same individual with which business is conducted on behalf of the City of Brenham.

VI. SUITABLE AND AUTHORIZED INVESTMENTS

City funds may be invested only in the instruments described below, all of which are authorized and further defined by the Act. The City will not be required to liquidate an investment that becomes unauthorized subsequent to its purchase.

I. AUTHORIZED INVESTMENTS

1. Obligations of the United States of America, its agencies and instrumentalities with stated maturities not to exceed three (3) excluding mortgage backed securities.

2. Obligations of the this State or any State or agency thereof including political subdivisions having been rated as investment quality by two nationally recognized investment rating firm, and having received a rating of not less that “AA” or its equivalent with maturities not to exceed three (3) years.
3. Fully insured or collateralized Certificates of Deposit issued by a bank doing business in Texas insured by the Federal Deposit Insurance Corporation or its successor or secured by obligations in a manner provided for by this Policy and state law with maturities not to exceed 12 months.

4. Constant dollar, local government investment pools, which 1) are created under and conform to the requirements of the Act, 2) are rated no lower than AAA or an equivalent rating by at least one nationally recognized rating service, 3) seek to maintain a $1.00 net asset value, and 4) are authorized by resolution or ordinance by the City Council.

5. Fully insured or collateralized interest bearing or money market account in any bank in Texas.

II. **UN-AUTHORIZED INVESTMENTS**

The Act and this Policy prohibits investment in the following investment instruments:

- Obligations whose payment represents the coupon payments of the outstanding principal balance of the underlying mortgage-backed security collateral and pay no principal (Interest Only mortgage backed securities);
- Obligations whose payment represents the principal stream of cash flow from underlying mortgage-backed security collateral and bear no interest (Principal only mortgage backed securities);
- Collateralized mortgage obligations that have a stated final maturity date of greater than 10 years;
- Collateralized mortgage obligations the interest rate of which is determined by an index that adjusts opposite to the changes in a market index; and

The practice of “leveraging” whereby funds are borrowed for the sole purpose of investing is prohibited.

VII. **INVESTMENT PARAMETERS**

**Maximum Maturities**

The longer the maturity of investments, the greater their price volatility; therefore, it is the City’s policy to concentrate its investment portfolio in shorter-term securities in order to limit principal risk caused by changes in interest rates.

The City shall attempt to match its investments with anticipated cash flow requirements. The City will not directly invest in securities maturing more than three (3) years from the date of purchase; however, the above described obligations, certificates, or agreements may be collateralized using longer dated investments.

The consolidated portfolio will have a maximum dollar-weighted average maturity of six months. This dollar-weighted average will be calculated using the stated final maturity dates of each security.
INVESTMENT POLICY

DIVERSIFICATION

The City of Brenham recognizes that investment risks can result from issuer defaults, market price changes or various technical complications leading to temporary illiquidity. Risk is controlled through portfolio diversification that shall be achieved by the following general guidelines:

- Limiting investments to avoid over concentration in investments from a specific issuer or business,
- Limiting investment in investments that have higher credit risks
- Investing in investments with varying maturities, and
- Continuously investing a portion of the portfolio in readily available funds such as local government investment pools (LGIPs), or money market funds to ensure that appropriate liquidity is maintained in order to meet ongoing obligations.

VIII. SELECTION OF BANKS AND DEALERS

DEPOSITORY

As required by the City of Brenham Charter, every five (5) years a banking services depository shall be selected through a competitive process, which shall include a formal request for proposal (RFP) and be consistent with state law. The selection of a depository will be determined by competitive bid and evaluation of bids will be based on the following selection criteria:

- The ability to qualify as a depository for public funds in accordance with state law.
- The ability to provide required services.
- The ability to meet all requirements in the banking RFP.
- The lowest net banking service cost, consistent with the ability to provide an appropriate level of service.
- The credit worthiness and financial stability of the bank.

All banks will execute a written depository agreement in accordance with FIRREA designating authorized collateral.

AUTHORIZED BROKERS/DEALERS

The City Audit/Investment Committee shall, at least annually, review, revise, and adopt a list of qualified broker/dealers and financial institutions (banks and pools) authorized to engage in securities transactions with the City. Those firms that request to become qualified bidders for securities transactions will be required to provide information for the City’s questionnaire that provides information regarding creditworthiness, contact information, and experience; and 2) the City’s certification stating the firm has received, read and understood the City of Brenham’s Investment Policy and have in place controls to prohibit selling the City any security not authorized by that Policy.

1The Financial Institutions Resource and Recover Enforcement Act governs the actions of the FDIC in cases of bank default.
INVESTMENT POLICY

The City shall have a minimum of three broker/dealers to assure competitive bidding. Authorized firms may include primary dealers or regional dealers and qualified depositories. All investment providers, including financial institutions, banks, and local government investment pools, must sign the City’s certification.

COMPETITIVE BIDS

All transactions will be made on a competitive basis. The Chief Financial Officer shall develop and maintain procedures for ensuring a competition in the investment of the City funds.

DELIVERY VS. PAYMENT

Securities shall be purchased only using the delivery vs. payment method with the exception of investment pools and mutual funds. Funds will be released after notification that the purchased security has been received by the custodian.

IX. SAFEKEEPING OF SECURITIES AND COLLATERAL

SAFEKEEPING AND CUSTODIAN AGREEMENTS

The City of Brenham shall contract with a depository for the safekeeping of securities owned by the City of Brenham as part of its investment portfolio or approve the custodial agreement for collateral to secure demand or time deposits. Securities owned by the City of Brenham shall be held in the City’s name as evidenced by safekeeping receipts of the institution holding the securities.

Collateral for deposits will be held by an independent third party custodian outside of the pledging bank and evidenced by original safekeeping receipts of the pledging institution with which the collateral is deposited. Original safekeeping receipts and monthly collateral reports shall be delivered to the City.

COLLATERAL POLICY

Consistent with the requirements of the Public Funds Collateral Act, it is the policy of the City to require collateralization of City funds in time and demand deposit with any depository bank. In order to anticipate market changes and provide a level of security for all funds, the collateralization level will be 102% of market value of principal and accrued interest on the deposits or investments less an amount insured by the FDIC. At its discretion, the City of Brenham may require a higher level of collateralization for certain investment securities.

Securities pledged as collateral shall be held by an independent third party outside the holding company of the pledging bank with whom the City has a current custodial agreement. The Chief Financial Officer is responsible for entering into or approving collateralization agreements with custodians. The agreements are to specify the acceptable investment securities for collateral, including provisions relating to possession of the collateral, the substitution or release of investment securities, ownership of
INVESTMENT POLICY

securities, and the method of valuation of securities. A clearly marked evidence of ownership (safekeeping receipt) must be supplied to and retained by the City. Collateral shall be priced weekly at a minimum and to assure that the market value of the pledged securities is adequate.

Any substitution of collateral shall require prior City approval. The substituted security’s market value will be equal to or greater than the required security value. Written notification of the substitution must be provided to the bank or safekeeping agent prior to any security release.

COLLATERAL DEFINED

The Entity shall accept only the following types of collateral:

- Obligations of the United States or its agencies and instrumentalities including mortgage backed securities
- Direct obligations of the state of Texas or its agencies and instrumentalities rated as to investment quality by a nationally recognized rating firm not less than A or its equivalent
- Obligations of states, agencies, counties, cities, and other political subdivisions of any state rated as to investment quality by a nationally recognized rating firm not less than A or its equivalent

SUBJECT TO AUDIT

All collateral shall be subject to inspection and audit by the Chief Financial Officer or the City of Brenham’s independent auditors.

X. PERFORMANCE

PERFORMANCE STANDARDS

The City of Brenham’s investment portfolio will be managed in accordance with the parameters specified within this Policy. The portfolio shall be designed with the objective of obtaining a reasonable yield throughout budgetary and economic cycles, commensurate with the investment risk constraints and the cash flow requirements of the City.

PERFORMANCE BENCHMARK

It is the policy of the City of Brenham to purchase investments with maturity dates coinciding with cash flow needs. Through this strategy, the City shall seek to optimize interest earnings utilizing allowable investments available on the market at that time. Market value will be calculated on a monthly basis on all securities owned and compared to current book value. The City of Brenham’s portfolio shall be designed with the objective of regularly meeting or exceeding the period average yield on the six month U.S. Treasury Bill which is comparable to the City’s maximum weighted average maturity in days based on its cash flow analysis.
XI. REPORTING

METHODS

The Investment Officer shall prepare an internal investment report on a monthly basis and on a quarterly basis for Council that summarizes investment strategies employed in the most recent quarter and describes the portfolio in terms of investment securities, maturities including the yield for the quarter.

The quarterly investment report shall be in compliance with the Act and include a summary statement of investment activity prepared in compliance with generally accepted accounting principles. This summary will be prepared in a manner that will allow the City Audit/Investment Committee to ascertain whether investment activities during the reporting period have conformed to the Investment Policy. The report will be provided to the City Council for review. The report will include the following:

- A listing of individual securities held at the end of the reporting period.
- Unrealized gains or losses as calculated on the beginning and ending book and market value of securities for the period.
- Additions and changes to the market value during the period.
- Average weighted yield of portfolio as compared to the City’s benchmark.
- Listing of investments by maturity date.
- Fully accrued interest and earnings for the reporting period
- The percentage of the total portfolio that each type of investment represents.
- Any additional reporting information as required by the Act.
- Statement of compliance of the City of Brenham’s Investment Policy and the Act.

Month-end market prices on each security are to be obtained from nationally recognized security databases (e.g., The Wall Street Journal, Bloomberg, etc.).

An independent auditor will perform an annual formal review of the quarterly reports with the results reported to the governing body.

MONITORING MARKET VALUE

Market value of all securities in the portfolio will be determined on a monthly basis. These values will be obtained from a reputable and independent source reported in the quarterly report.
INVESTMENT POLICY

XII. INVESTMENT POLICY ADOPTION

The City of Brenham’s Investment Policy shall be adopted no less than annually by resolution of the City Council. The City of Brenham’s Investment Policy shall be subject to revisions consistent with changing laws, regulations, and needs of the City but any such changes must be adopted by the Council before use. The resolution adopting the policy and strategies must include any changes or modifications to the Policy.

Subject: Industrial Land Acquisition by the BCDC

Date: October 10, 2016

For the past two months, the Brenham Community Development Corporation has been considering the purchase of a tract of land near the Southwest Industrial Park to add to its industrial land holdings. The 45 acre tract recently came on the market and has road frontage on three sides.

The BCDC approved the purchase at their September meeting and authorized me as President of the BCDC to enter into an earnest money contract. The attorneys for both the seller and buyer are working through the details of the contract.

Since this project was not anticipated in the FY17 BCDC budget, the resolution including in your packet formally approves the project by the City Council as the governing body. As with past real estate transactions of the BCDC (Brenham Business Center in 1998 and Southwest Industrial Park Section III in 2009) the Corporation has acquired these tracts through a combination of use of cash reserves and borrowing from the Electric Fund.

In the case of this transaction, the BCDC plans to seek a loan from the City for $500,000 and fund the balance of the cost from their cash reserves. Typically, the City charges an interest rate a little above the 20 year tax exempt bond rate at the time of financing. The terms of the borrowing we recommended to the BCDC was a 10 year note at a 3.25% interest rate with the first two years of payments being interest only.

Unlike the Southwest Industrial Park Section III tract acquired in 2009, this new track lies completely outside the city limits. That triggers a provision in State law that requires the BCDC to obtain a favorable vote of the Commissioners Court in order to complete the transaction.
Whenever the details of the earnest money contract are worked out between the buyer and seller we will be ready to make the formal request to the County. I will prepare a letter as President of the BCDC requesting the County’s support for the BCDC action. I will ask to be on the County’s agenda after the earnest money contract has been finalized and the transaction is ready to escrow at the title company.

The State law provision applicable to 4B economic development sales tax projects on lands lying totally outside the city limits is found in Section 501.159 of the Texas Local Government Code. Even though the City intends to bring the tract into the city limits it is presently entirely outside the city limits and requires County action. Based on the wording of the statute, the BCDC will be approaching the County Commissioners court with a “request the corporation (BCDC) to exercise its powers within Washington County.”

The Brenham Business Center land debt will mature in 2018 along with its infrastructure debt. There is also considerable debt maturing on the Recreation side of the BCDC ledger with the Hohlt Park and Blue Bell Aquatics Center debt maturing in 2018 as well. Other than the debt associated with the Southwest Industrial Park Section III, all other BCDC will mature in 2018. That is why this financing was structured to be interest only payments for the first two years.

Your favorable action on Resolution R-16-028 approving the land acquisition and approving a promissory note is requested. A copy of the resolution, promissory note, and debt service schedule is included in your agenda packet.
RESOLUTION NO.  R-16-028

A RESOLUTION APPROVING A PROJECT OF THE BRENHAM COMMUNITY DEVELOPMENT CORPORATION (BCDC)

WHEREAS, the Brenham Community Development Corporation (“BCDC”) desires to acquire approximately 44.9 acres of land for industrial park purposes and has approved the project and expenditure of funds for the acquisition of said land located at the intersection of FM 389 and FM 332 in Brenham, Washington County, Texas; and

WHEREAS, the City Council of the City of Brenham desires to approve said project and expenditure of BCDC funds for the project, and further desires to assist the BCDC with a portion of the financial resources necessary to acquire the land;

NOW THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF BRENHAM, TEXAS:

1. That the City Council hereby approves the above-referenced project and expenditure of BCDC funds for the acquisition of land for industrial park purposes, and in order to promote local economic development and stimulate business and commercial activity in the City, further approves the provision of assistance to the BCDC with a portion of the financial resources necessary to acquire the land, in the form of a loan in the amount of $500,000.00 to the BCDC, upon the terms set out in Exhibit A, attached hereto and incorporated herein for all purposes.

2. That the Mayor is hereby authorized to execute any and all documents, including without limitation a promissory note and deed of trust appropriate to document and secure the loan described herein, necessary to implement this Resolution.

APPROVED on this the 13th day of October, 2016.
