11. Discuss and Possibly Act Upon the Purchase of a Pool Pak System for the Blue Bell Aquatic Center Using BuyBoard Contract No. 552-17 and Authorize the Mayor to Execute Any Necessary Documentation

Assistant City Manager of General Government Ryan Rapelye presented this item. Rapelye explained that the Blue Bell Aquatic Center (BBAC) opened in 2001, thus making the systems and equipment in that facility over fifteen years old. Rapelye stated that when large swim groups are active in the Natatorium, the humidity in the air becomes thick with condensation of chlorinated water, which can cause the air quality in the facility to deteriorate. Rapelye advised that the condensation caused by the large swim group events could trigger a destructive process causing rust. Rapelye noted that proper airflow is key to minimize this type of chlorinated condensation and it appears that this airflow was not designed into the structure itself; rather it was dependent upon a sophisticated dehumidification system. Rapelye noted the dehumidification system currently installed at the BBAC is failing and needs to be replaced to ensure the air quality in the Natatorium remains acceptable. Rapelye advised that in addition, the boiler system is failing and several components of that system need to be replaced or repaired. Rapelye stated that Staff presented this item for discussion and review at the Parks Advisory Board funding review meeting held May 16, 2017, and to Council during the July 6 – 7, 2017 Budget Workshops.

Maintenance Supervisor, Stephen Draehn, discussed the units and some of the issues that are occurring at the BBAC.

A motion was made by Councilmember Cantey and seconded by Mayor Pro Tem Ebel to approve the purchase of a Pool Pak System from American Mechanical Services LLC, using BuyBoard Contract No. 552-17, in the amount of $674,963.00 and authorize the Mayor to execute any necessary documentation.

Assistant City Manager of Public Utilities Lowell Ogle presented this item. Ogle explained that this truck is used to clear sewer stoppages, for routine maintenance of sewer lines, removing debris from manholes, and cleaning lines prior to them being inspected by a camera. Ogle stated this unit would replace Unit 220, a 2003 GMC model that has begun to have many maintenance issues.

A motion was made by Councilmember Pyle and seconded by Councilmember Cantey to approve the purchase of a high pressure jet truck, with a debris vacuum, from Rush Truck Centers of Texas, L.P., using BuyBoard Contract No. 521-16, in the amount of $121,483.00 and authorize the Mayor to execute any necessary documentation.

14. Discuss and Possibly Act Upon the Rejection of Bid No. 18-005 for the Purchase of a Live Floor Trailer for the Sanitation Department and Authorize the Mayor to Execute Any Necessary Documentation

Public Works Director Dane Rau presented this item. Rau explained that on January 5, 2018 staff opened bids for a 53’ Refuse Trailer. Rau advised this trailer was budgeted for in the 2017-18 budget. Rau stated that the Purchasing Department sent out four bid packs and received three bids and in looking at the bids submitted, all bids fell above the budgeted price of $70,000.00. Rau noted that two of the trailers that were closer to the budgeted amount did not meet specifications, specifically on the strength of the aluminum on the side gauge of the trailers. Rau noted that specifications called for .175 solid weld aluminum and both trailer manufactures have submitted bids with .150 solid gauge aluminum. Rau explained that one manufacturer also did not meet specification, not only on the side gauge, but also on the specified side height. Rau stated that with the additional height, this would not suit the current set up at the Transfer Station.
