WORK SESSION

5. Discussion and Presentation of the 2017 Annual Report and Crime Analysis for the City of Brenham Police Department

Interim Police Chief Rusty Pancoast presented this item. Pancoast explained that the report gives comparative statistical data and information on various police programs.

Councilmember Williams asked about security at the schools. Pancoast stated that an officer is assigned to the junior high campus and one at the high school at all times. Pancoast also stated that in addition to that, the school district pays an officer to work at one or the other campuses each day and it is on a random basis. Pancoast advised that officers have had active shooter response training, completed security assessments, and signage has been added to the doors to help officers know where to go.

Councilmember Goss advised that according to Municipal Court, citation numbers are lower than what they have been and revenues have decreased. Goss stated he would like to see a report showing the number of warnings compared to the number of citations issued. Captain Dant Lange advised that one reason citation numbers are down is because the department did not participate in the STEP grant program last year.

Councilmember Herring questioned why property crimes were higher than in previous years. Lange stated that property crimes occur in cycles due to crime rings targeting towns and sometimes it takes a while to receive the proper intel to stop that from happening.

REGULAR SESSION

6. Discuss and Possibly Act Upon the Racial Profiling Report for the City of Brenham Police Department and Authorize the Mayor to Execute Any Necessary Documentation

Interim Police Chief Rusty Pancoast presented this item. Pancoast explained that the Annual Racial Profiling Report is required under State and Federal Law, and provides details on traffic stops, citations issued, arrests made, and searches conducted by the Brenham Police Department. Pancoast advised that there are numerous factors which may affect the racial makeup of the traffic enforcement efforts reflected in the report. Pancoast explained that one such factor is a major traffic corridor connecting two large cities that transects the reporting agencies geographical jurisdiction. Pancoast stated this is the case in Brenham, through which State Highway 290 passes, connecting Houston and Austin.

Councilmember Herring stated that he would like to see a report for the past three years to find out if there has been a trend in anything particular.
A motion was made by Councilmember Herring and seconded by Councilmember Cantey to approve the Racial Profiling Report for the City of Brenham Police Department and authorize the Mayor to execute any necessary documentation.

8. **Discuss and Possibly Act Upon Purchasing Replacement Virtual Server Environment Equipment for the Information Technology Department and Authorize the Mayor to Execute Any Necessary Documentation**

Information Technology Manager Kevin Schmidt presented this item. Schmidt explained that the City invested in its initial virtual server environment equipment in 2010, which drastically reduced server operating and replacement costs by combining many separate servers into a smaller amount of hardware. Schmidt stated the current equipment will reach end-of-support-life this fiscal year and will not be supported by the manufacturers anymore. Schmidt noted the virtual server environment houses nearly all of the City’s virtual servers and must be maintained to a high-level of reliability and performance. Schmidt advised that this equipment is scheduled to be replaced this fiscal year by a qualified contractor before the old equipment begins operating outside of a support contract.

A motion was made by Councilmember Cantey and seconded by Mayor Pro Tem Ebel to approve the purchase of replacement virtual server environment equipment for the Information Technology Department from Dell in the amount of $86,167.44 and authorize the Mayor to execute any necessary documentation.
