11. **Discuss and Possibly Act Upon the Purchase of a Pool Pak System for the Blue Bell Aquatic Center Using BuyBoard Contract No. 552-17 and Authorize the Mayor to Execute Any Necessary Documentation**

   Assistant City Manager of General Government Ryan Rapelye presented this item. Rapelye explained that the Blue Bell Aquatic Center (BBAC) opened in 2001, thus making the systems and equipment in that facility over fifteen years old. Rapelye stated that when large swim groups are active in the Natatorium, the humidity in the air becomes thick with condensation of chlorinated water, which can cause the air quality in the facility to deteriorate. Rapelye advised that the condensation caused by the large swim group events could trigger a destructive process causing rust. Rapelye noted that proper airflow is key to minimize this type of chlorinated condensation and it appears that this airflow was not designed into the structure itself; rather it was dependent upon a sophisticated dehumidification system. Rapelye noted the dehumidification system currently installed at the BBAC is failing and needs to be replaced to ensure the air quality in the Natatorium remains acceptable. Rapelye advised that in addition, the boiler system is failing and several components of that system need to be replaced or repaired. Rapelye stated that Staff presented this item for discussion and review at the Parks Advisory Board funding review meeting held May 16, 2017, and to Council during the July 6 – 7, 2017 Budget Workshops.

   Maintenance Supervisor, Stephen Draehn, discussed the units and some of the issues that are occurring at the BBAC.

Assistant City Manager of Public Utilities Lowell Ogle presented this item. Ogle explained that this truck is used to clear sewer stoppages, for routine maintenance of sewer lines, removing debris from manholes, and cleaning lines prior to them being inspected by a camera. Ogle stated this unit would replace Unit 220, a 2003 GMC model that has begun to have many maintenance issues.

A motion was made by Councilmember Pyle and seconded by Councilmember Cantey to approve the purchase of a high pressure jet truck, with a debris vacuum, from Rush Truck Centers of Texas, L.P., using BuyBoard Contract No. 521-16, in the amount of $121,483.00 and authorize the Mayor to execute any necessary documentation.

14. Discuss and Possibly Act Upon the Rejection of Bid No. 18-005 for the Purchase of a Live Floor Trailer for the Sanitation Department and Authorize the Mayor to Execute Any Necessary Documentation

Public Works Director Dane Rau presented this item. Rau explained that on January 5, 2018 staff opened bids for a 53’ Refuse Trailer. Rau advised this trailer was budgeted for in the 2017-18 budget. Rau stated that the Purchasing Department sent out four bid packs and received three bids and in looking at the bids submitted, all bids fell above the budgeted price of $70,000.00. Rau noted that two of the trailers that were closer to the budgeted amount did not meet specifications, specifically on the strength of the aluminum on the side gauge of the trailers. Rau noted that specifications called for .175 solid weld aluminum and both trailer manufactures have submitted bids with .150 solid gauge aluminum. Rau explained that one manufacturer also did not meet specification, not only on the side gauge, but also on the specified side height. Rau stated that with the additional height, this would not suit the current set up at the Transfer Station.

A member of the board shall not serve on the Planning and Zoning Commission during the same term.
   b. The city council shall provide for the appointment of up to four alternate members to serve in the absence of one or more of the regular board members on an alternating basis such that all alternate members have equal opportunities to serve on the board. The planning director shall determine which alternate will serve if an alternate is needed.
   c. Regular board members and alternate members shall serve for a term of two years, and expiration of terms shall be staggered so that an overlapping of terms occurs (e.g., in any two-year period, the terms of two regular members and at least one alternate member shall expire during one of those years, and the terms of three regular members and at least one alternate member shall expire during the second year).
   d. Any vacancies on the board (both regular and alternate members) shall be filled for the unexpired terms via appointment by a simple majority vote of the city council for the remainder of the terms.
   e. Members of the board may be removed from office for cause, and after a public hearing, by a simple majority vote of the full city council. Failure to attend three consecutive scheduled meetings shall be deemed as neglect and cause for removal from office, unless such absences were due to unusual circumstances beyond the member's control such as sickness of the member or someone within the member's immediate family. Absences may be excused by the board or by the city council.
SECTION 3

This Ordinance shall take effect as provided by the Charter of the City of Brenham, Texas

PASSED and APPROVED on its first reading this the 1st day of February, 2018.

**AGENDA ITEM DESCRIPTION:** Discuss and Possibly Act Upon the Racial Profiling Report for the City of Brenham Police Department and Authorize the Mayor to Execute Any Necessary Documentation

**SUMMARY STATEMENT:** The Brenham Police Department neither condones nor allows racial discrimination in our law enforcement efforts. Further, this Annual Racial Profiling Report is required under State and Federal Law, and provides details on traffic stops, citations issued, arrests made, and searches conducted by the Brenham Police Department. While it is generally expected that this report should mirror the demographic makeup of the community being served, there are numerous factors which may affect the racial makeup of the traffic enforcement efforts reflected in the report. One such factor is a major traffic corridor connecting two large cities which transects the reporting agencies geographical jurisdiction. This is the case in Brenham, through which State Highway 290 passes, connecting Houston and Austin.

**STAFF ANALYSIS (For Ordinances or Regular Agenda Items):**

A. **PROS:** The information in this report actually matches the demographics of our community more closely than expected. There are only a few percentage points difference between the report and the demographics of the community.

B. **CONS:** None indicated.

**ALTERNATIVES (In Suggested Order of Staff Preference):** N/A

**ATTACHMENTS:** (1) Brenham Police Department 2017 Racial Profiling Report; and (2) Brenham Police Department Racial Profiling Statistics

AGENDA ITEM DESCRIPTION: Discuss and Possibly Act Upon Purchasing Replacement Virtual Server Environment Equipment for the Information Technology Department and Authorize the Mayor to Execute Any Necessary Documentation

SUMMARY STATEMENT: The City invested in its initial virtual server environment equipment in 2010, which drastically reduced server operating and replacement costs by combining many separate servers into a smaller amount of hardware. The current equipment will reach end-of-support-life this fiscal year and will not be supported by the manufacturers anymore. The virtual server environment houses nearly all of the City’s virtual servers and must be maintained to a high-level of reliability and performance. This equipment is scheduled to be replaced this fiscal year by a qualified contractor before the old equipment begins operating outside of a support contract. Several options have been thoroughly researched, and the IT department recommends purchasing the replacement equipment and configuration services from Dell at a cost of $86,167.44.

STAFF ANALYSIS (For Ordinances or Regular Agenda Items):

A. PROS: Purchasing this equipment and services will enable the City to continue providing a high level of support and reliability for the IT applications that the City departments rely on to function. The new system will allow for more cost effective expansion and maintenance.

B. CONS: Without replacement and in the event of hardware failure, the IT staff may not have any options available to get the old equipment operational. Maintaining the old equipment may prevent necessary software upgrades and existing technical issues from being resolved, and it will severely limit adaptability.

ALTERNATIVES (In Suggested Order of Staff Preference):

ATTACHMENTS: (1) Dell Quote Number 3000022081692.1

FUNDING SOURCE (Where Applicable): Capital Lease
RECOMMENDED ACTION: Approve the purchase of replacement virtual server environment equipment for the Information Technology Department from Dell in the amount of $86,167.44 and authorize the Mayor to execute any necessary documentation

**AGENDA ITEM DESCRIPTION:** Discuss and Possibly Act Upon Bid No. 18-006 for Generator Maintenance and Inspection for Various City Facilities and Authorize the Mayor to Execute Any Necessary Documentation

**SUMMARY STATEMENT:** On January 31, 2018, the Purchasing Department opened bids related to the Annual Generator Maintenance and Inspection Contract for various City facilities. The previous contract was with LJ Power in which the City of Brenham chose not to use the optional 1 yr. extension. That contract expired on Feb 1, 2018. A letter was sent to LJ Power on January 18, 2018 reflecting the City’s decision.

The services in the bid are for a bi-annual visit to each generator. The first visit details a full service of the unit, which includes oil and filter change, tune-up, complete inspection, and a 2-hour load bank testing of each generator. The second visit, which occurs six months after the first visit, will provide an inspection of the generator. Each trip the City of Brenham will receive full reports on service, load bank tests, and recommended parts/repairs or replacements needed following inspection of generators. The company will also identify maintenance issues needed and provide a service diagnosis with an option to repair. This contract will also allow us to quickly get a response in times of need such as hurricanes and other events in which our generators are needed for essential purposes.

There were 5 bids received for review. Loftin Equipment submitted the lowest bid at $11,130.00. This includes an additional trip charge of $1.50/mile (Est @ $180) and a labor rate of $85.00/hr. on additional trip charges. Prior to 2017, we have used Loftin Equipment in which they had the contract from 2014-2017.

Currently we have 10 locations that have generators that will fall under this contract. This bid was very competitive and was $1,330 higher than 2017. We have seen this in the past but have realized that even though we save $1,800 in 2017 we did not receive the service that we had in the past. The term of the contract is for one year with the option to renew for an additional two years if both parties agree.
### STAFF ANALYSIS (For Ordinances or Regular Agenda Items):

**A. PROS:** Very competitive bid with lower prices than 2014.

**B. CONS:** None

AGENDA ITEM DESCRIPTION: Discuss and Possibly Act Upon Bid No. 18-005 for the Purchase of a Live Floor Trailer for the Sanitation Department and Authorize the Mayor to Execute Any Necessary Documentation

SUMMARY STATEMENT: On February 9, 2018, the Purchasing Department opened bids for the purchase of an aluminum refuse trailer. The bids were as follows:

</table>

Four bids were received. As shown above, Travis Body and Trailer was the lowest bid received and met all bid specifications. Travis Body and Trailer’s bid was $69,950 plus $300 for delivery totaling $70,250.00.

During the 2017-18 budget process, a total of $70,000 was budgeted for this trailer. By purchasing this trailer, it will replace unit #65, which is a 2009 Travis trailer. This trailer is the second oldest in our fleet, but is in the worst shape and has floor issues. These trailers are used 6 days a week and transport over 20+ tons of waste on each trip to the landfill. The transfer station averages 4 trips per day to the landfill with other trailers being loaded throughout the day.

By purchasing this trailer, it will maintain our fleet at 6-transport trailer and 4 trucks. Over the last year, we have seen our volumes increased approximately 1300 tons than the prior year. Waste transported in 2017 was 25,916 tons.
**STAFF ANALYSIS (For Ordinances or Regular Agenda Items):**

**A. PROS:** Replace an old trailer that has served its life expectancy. Right at budget number.

**B. CONS:** None
