Planning Technician Kim Hodde presented this item. Hodde stated that Al Miller sold his hangar to Mark T. and Elaine Denson and therefore, a new lease agreement needs to be executed with Mr. and Mrs. Denson.
Hodde advised that execution of this new lease agreement would terminate the previous lease agreement with Mr. Miller. Hodde explained that the lease agreement is the City’s standard ground-space lease for $0.08 cents per square foot and the lease rate may increase up to $0.02 per square foot in a five-year period as the prevailing rates change.

A motion was made by Mayor Pro Tem Ebel and seconded by Councilmember Wright to approve a Ground-Space Lease Agreement with Mark T. and Elaine Denson for hangar space at the Brenham Municipal Airport and authorize the Mayor to execute any necessary documentation.

Mayor Tate called for a vote. The motion passed with Council voting as follows:

- Mayor Milton Y. Tate, Jr.  Yes

18. Discuss and Possibly Act Upon a Ground Space Lease Agreement with Aviators Plus, LLC for Hangar Space at the Brenham Municipal Airport and Authorize the Mayor to Execute Any Necessary Documentation

Planning Technician Kim Hodde presented this item. Hodde stated that A.J. Foyt sold his hangar located at 2901 Aviation Way to Aviators Plus (Brent Nedbalek) and therefore, a new lease agreement should be executed with Mr. Nedbalek. Hodde advised that execution of this new lease agreement would terminate the previous lease agreement with Mr. Foyt. Hodde noted that the lease agreement is the City’s standard ground-space lease for $0.08 cents per square foot and the lease rate may increase up to $0.02 per square foot in a five-year period as the prevailing rates change.

Hodde stated that Mr. Foyt’s original lease agreement was for 12,000 square feet. Hodde explained that, however, improvements have been made over the years that are not within the existing lease area so this new lease area remedies this situation as well as meets Mr. Nedbalek’s request for an expanded lease area. Hodde noted that the Airport Advisory Board met on February 12, 2019 and recommends expanding the lease area to 45,846 square feet.

A motion was made by Councilmember Cantey and seconded by Mayor Pro Tem Ebel to approve a Ground Space Lease Agreement, to include the expanded lease area of 45,846 square feet, with Aviators Plus, LLC (Brent Nedbalek) for hangar space at the Brenham Municipal Airport and authorize the Mayor to execute any necessary documentation.
Mayor Tate called for a vote. The motion passed with Council voting as follows:

- Mayor Milton Y. Tate, Jr. Yes
- Mayor Pro Tem Andrew Ebel Yes
- Councilmember Susan Cantey Yes
- Councilmember Danny Goss Yes

19. **Discuss and Possibly Act Upon City of Brenham Project No. 64C-50C Related to FY19 Water Main Replacements and Authorize the Mayor to Execute Any Necessary Documentation**

Assistant City Manager of Public Utilities Lowell Ogle presented this item. Ogle stated that this project would replace approximately 11,000 linear feet of existing water main. Ogle explained that on February 7, 2019, bids for the construction phase were opened by Strand Associates, Inc. and staff. Ogle noted that three bids were received for the rehabilitation project. Ogle advised that the low bidder, Barclays Premier Utility Services, LLC is qualified and experienced in this type of work and has been recommended by Strand Associates, Inc.

A motion was made by Councilmember Herring and seconded by Councilmember Kolby to award City of Brenham Project No. 64C-50C to Barclays Premier Utility Services, LLC, in the amount of $1,355,430 and includes Bid Alternates H and I, 5% Bid Bond, and Addendum No. 1, related to FY19 Water Main Replacements and authorize the Mayor to execute any necessary documentation.

Mayor Tate called for a vote. The motion passed with Council voting as follows:

- Mayor Milton Y. Tate, Jr. Yes
- Mayor Pro Tem Andrew Ebel Yes
- Councilmember Susan Cantey Yes
- Councilmember Danny Goss Yes
- Councilmember Keith Herring Yes
- Councilmember Albert Wright Yes
- Councilmember Clint Kolby Yes
20. **Discuss and Possibly Act Upon a Professional Services Agreement Between the City of Brenham and Strand Associates, Inc. for Services Related to the Water Line Extension to New Washington County Road and Bridge Building and Authorize the Mayor to Execute Any Necessary Documentation**

Assistant City Manager of Public Utilities Lowell Ogle presented this item. Ogle stated that this extension would begin near the intersection of TX-36 North and N. Park Street and head north approximately 3,840 linear feet. Ogle explained that the services to be provided include, but are not limited to, performing topographic field surveys, review preliminary regulatory permit requirements, distribute bidding documents, attend pre-bid meeting, attend bid opening, and provide contract administration services including review of contractor’s drawing submittals, review of contractor’s periodic pay request, and provide record drawings. Ogle noted that this extension is outside of the city limits and Washington County has agreed to reimburse the City for the cost of this extension, which, including engineering is $393,970.

A motion was made by Councilmember Kolby and seconded by Councilmember Wright to approve a Professional Services Agreement between the City of Brenham and Strand Associates, Inc., not to exceed $55,000, for Services Related to the Water Line Extension to New Washington County Road and Bridge Building and authorize the Mayor to execute any necessary documentation.

Mayor Tate called for a vote. The motion passed with Council voting as follows:

**SUMMARY STATEMENT:** John Hermann and Gregg Appel are the property owners of a vacant 2.539-acre tract of land located west of the intersection of South Market Street and Cantey Street. The applicants are requesting the property be rezoned from a combination of Mixed Residential Use District (R-2) and Commercial Research and Technology Use District (B-2) to Commercial Research and Technology Use District (B-2) to allow the entire tract to contain a uniform zoning district for marketability and redevelopment purposes.

The proposed rezoning request is in accordance with land use policies adopted in Envision 2020, the City of Brenham Comprehensive Plan which recommends the City consider multiple-family uses near major arterials as well as commercial and retail uses along highly traveled roadways.

No public comments were made during the public hearing portion of the meeting.

On Monday, February 25, 2019, after conducting a Public Hearing, the Planning and Zoning Commission voted unanimously to recommended approval of the rezoning request.

CASE NUMBER P-19-006
ZONE CHANGE REQUEST – 2412 S. Market Street

STAFF CONTACT: Stephanie Doland, Assistant Director of Development Services
OWNERS/APPLICANTS: John Hermann and Gregg Appel
ADDRESS/LOCATION: 2412 S. Market Street. Located west of the intersections of South Market Street, Cantey Street and US Highway 290 E (Exhibit A).
LEGAL DESCRIPTION: 2.539 acres of land being part of the John Long Survey, A-156
LOT AREA: Approximately 2.539 acres
ZONING DISTRICT/USE: Mixed Residential Use District (R-2) and B-2 Commercial Research and Technology District / Vacant (Exhibit B)
FUTURE LAND USE: Multiple-Family
REQUEST: A request to change the zoning classification from a combination of Mixed Residential Use District (R-2) and Commercial Research and Technology Use District (B-2) to Commercial Research and Technology Use District (B-2) (Exhibit C).

BACKGROUND:
The subject property is currently zoned as a combination of R-2, Mixed Residential Use District and B-2, Commercial Research and Technology District. The property owners/applicants, John Hermann and Gregg Appel, would like to have consistent zoning on this tract for future development. The applicants have requested that the portion of the property currently zoned R-2 be rezoned such that the entire property be zoned B-2.

ANALYSIS OF CITY OF BRENHAM ZONING POLICIES:
The purpose of zoning policies is to provide guidelines for considering future amendments to the zoning ordinance (Part 1, Section 4 of Appendix A – “Zoning” of the Brenham Code of Ordinances). They are as follows:

(1) The city's zoning should recognize and seek to preserve the small town attributes that make Brenham a special place for its citizens to live, work and play.

The subject property is currently undeveloped vacant land. The subject property is adjacent to S. Market Street to the north, located to the east is zoned a combination of B-2 and R-2 and developed with a single-family home, the west is zoned B-2 with the northern tract being a commercial
development and the tract to the west and south undeveloped. The applicant desires to have consistent B-2 zoning on this tract instead of a mix of R-2 and B-2 zoning. Allowing the proposed rezoning request would allow the tract to develop as a mixed-use development and would be in keeping with the development pattern in the general vicinity.

(2) The city's zoning should be guided by the future land use plan and other applicable guidelines found in the Comprehensive Plan.

The future land use map portion of the Envision 2020 Comprehensive Plan (Plan) suggests the subject property may be appropriate for multiple-family uses. However, the Plan also includes land use policies to help guide land use decisions. Specifically the Plan recommends that the City consider permitting commercial and retail uses along highly traveled roadways such as Business Highway 290. Additionally, the land use policies include the recommendation that multiple-family housing shall be located near major arterials “towards the periphery of the community.” If the requested zone change were approved, the subject property would allow for the development of both multiple-family housing developments two acres or greater in size in addition to office, retail and commercial uses. Staff believes that the proposed request aligns with the goals and land use policies established in the Comprehensive Plan.

(3) The city's zoning should be designed to facilitate the more efficient use of existing and future city services and utility systems in accordance with the Comprehensive Plan.

The subject property is vacant; however, existing utility services are located along the right-of-ways for S. Market Street and can be extended to serve the proposed development on the property.

(4) The city's zoning should be organized and as straightforward as possible to minimize use problems and enforcement problems.

The proposed zone change, if approved, will be reflected on the City of Brenham zoning map available for citizen viewing on the City of Brenham homepage.

(5) The city's zoning process should be fair and equitable, giving all citizens adequate information and opportunity to be heard prior to adoption of zoning amendments.

Property owners within 200 feet of the project site were mailed notifications of this request on February 14, 2019. The Notice of Public Hearing was published in the Brenham Banner on February 15, 2019. Any public comments submitted to staff will be provided in the Planning & Zoning Commission and City Council packets or during the public hearing.

(6) The city's zoning should insure that adequate open space is preserved as residential and commercial development and redevelopment occur.

If approved, the property will be required to adhere to minimum building setbacks and maximum impervious coverage requirements for property zoned B-2, Commercial Research and Technology. Staff finds that the aforementioned requirements will ensure that adequate open space is preserved on the subject property.

(7) The city's zoning should insure Brenham's attractiveness for the future location of business and housing by preserving an attractive and safe community environment in order to enhance the quality of life for all of its residents.
Staff believes that the requested zoning and associated land uses are appropriate in this location given adjacent zoning designations, existing development in the vicinity, and conformance with the City's adopted future land use map.

(8) The city's zoning ordinance should preserve neighborhood culture by retaining and promoting land uses consistent with the community's plan for the development and/or redevelopment of its neighborhoods.

Rezoning the subject property to B-2 will allow the subject property to develop in a similar manner to property in the general vicinity. On January 28, 2019, the Planning and Zoning Commission recommended approval of a similar rezoning request for the approximately 52-acre tract of land located south east of the subject tract. The 52-acre tract rezoning request was approved by the Brenham City Council for a B-2 zoning distinction on February 21, 2019. The subject tract is located adjacent to an arterial roadway, which is capable of handling traffic associated with uses allowed in the B-2 district. Adjacent property to the west and the south is zoned B-2, and the property to the east is zoned a combination of B-2 and R-2 and developed with a single-family dwelling. The applicants, John Hermann and Gregg Appel, will be required to adhere to minimum buffer yard requirements. Buffer yard requirements are established to preserve existing neighborhoods and ensure adjacent property develops in a manner compatible to nearby land uses.

(9) The city's zoning should protect existing and future residential neighborhoods from encroachment by incompatible uses.

Staff finds that rezoning the property will protect adjacent existing and future residential neighborhoods due to the City adopted development standards including requirements related to buffer yards, screening, setbacks, drainage and landscaping.

(10) The city's zoning should assist in stabilizing property values by limiting or prohibiting the development of incompatible land uses or uses of land or structures which negatively impact adjoining properties.

Staff is unable to determine any destabilizing effects on the neighboring properties should this rezoning request be approved.

(11) The city's zoning should make adequate provisions for a range of commercial uses in existing and future locations that are best suited to serve neighborhood, community and regional markets.

If approved, the proposed rezoning will allow construction of a mixture of land uses, including multiple-family, retail, office, and commercial. Vacant commercial property surrounds the subject tract to the north, east, west, and south. Staff believes that the proposed zoning change, if approved, will not negatively affect vacant land classified for commercial uses.

(12) The city's zoning should give reasonable accommodation to legally existing incompatible uses, but it should be fashioned in such a way that over time, problem areas will experience orderly change through redevelopment that gradually replaces the nonconforming uses.

The property is vacant, and staff is not aware of any hindrances on the property created by legally existing incompatible uses. The applicant's request will allow the subject property to develop with a mixture of land uses and if approved, will allow for compatible, legally conforming development.
(13) The city's zoning should provide for orderly growth and development throughout the city.

Staff finds that the proposed rezoning change will allow for the orderly growth and development in the general vicinity and throughout the city. Furthermore, the proposed rezoning is in accordance with the City's adopted Future Land Use Map and Comprehensive Plan.

STAFF RECOMMENDATION:

Staff recommends approving the proposed rezoning to the B-2, Commercial Research and Technology zoning use district for the subject 2.539-acre tract.

AGENDA ITEM DESCRIPTION: Discuss and Possibly Act Upon Ordinance No. O-19-012 on Its Second Reading Amending Appendix A – “Zoning” of the Code of Ordinances of the City of Brenham, Texas by Amending Part 1, Sec. 5.02 Definitions, to Redefine Accessory Building or Use, Garage Apartment and Establish a New Definition for Accessory Dwelling Units (ADU); Part II, Division 1, Section 10 – Accessory Structures and Uses to Establish Standards Related to the Development of Such Uses; Part II, Division 1, Section 17 – Height and Area Exceptions of General Applicability; and Part II, Division 2 – Zoning District Regulations, to Allow Accessory Dwelling Units by Specific Use Permit in the Residential (R-1), Mixed Residential (R-2), and Manufactured Home Residential (R-3) Zoning Districts and By-Right in the Local Business/Residential Mixed Use (B-1) Zoning District (Case No. P-18-025)

SUMMARY STATEMENT: This is a request initiated by Mary Thornhill to amend the zoning ordinance to allow accessory dwelling units (ADUs) uses within various residential zoning districts and to establish use specific standards for such uses. On February 7, 2019 the City Council held a Public Hearing and no citizen comments were made. During the regular agenda item Council directed staff to conduct additional research on the topic and the item was tabled for future consideration at the February 21, 2019 Council Meeting.

On February 21, 2019 Council reconsidered the request and unanimously voted to recommend approval of the staff proposed text amendment, with the condition the Planning and Zoning Commission recommendation be upheld and the height restriction be removed.

The proposed text amendment is included as the second reading per the request of the Council at the time of the motion on February 21, 2019. Attached is a revised ordinance which includes the removal of height restrictions for accessory dwelling units and language clarifying the requirement that accessory structures and dwelling units be located to the rear or side of the principle structure.

A more detailed and comprehensive analysis of the proposed amendment as recommended by staff and the Planning and Zoning Commission is provided in the attached Staff Report.
STAFF ANALYSIS (For Ordinances or Regular Agenda Items): Staff recommends amending, Appendix A – Zoning of the Brenham Code of Ordinances to refine language related to Accessory Structures and Uses, adopt a definition for Accessory Dwelling Units and establish use specific standards for such uses.

A. PROS:

- Approving the proposed amendment will eliminate inconsistencies in the Zoning Ordinance pertaining to the definition, use, location, and regulation of garage apartments and accessory structures and uses.
- Defining “Accessory Dwelling Unit” will make it possible to regulate the development of this type of housing through the proposed use-specific standards.
- Approving the proposed amendment will allow Accessory Dwelling Units with prior approval of a Specific Use Permit in residential zoning districts and by-right in the B-1, Local Business Mixed District.
- Allowing “Accessory Dwelling Units” with prior approval of a Specific Use Permit in residential zoning districts will allow the City to apply standards intended to encourage neighborhood compatibility and preserve established Brenham neighborhoods.

B. CONS:

- Approval of the proposed amendment may increase the number of Specific Use Permit cases considered by the Planning and Zoning Commission and City Council.

ALTERNATIVES (In Suggested Order of Staff Preference):

1. Approve the proposed amendment, as recommended by City Staff and the Planning and Zoning Commission;
2. Deny the proposed text amendment.

CASE NUMBER P-18-025
TEXT AMENDMENT – Accessory Dwelling Units (ADU’s)

REQUEST:

The applicant, Mary Thornhill, is requesting the City of Brenham consider an amendment to Brenham’s Code of Ordinances, Appendix A: Zoning, Part II, Division 2, Section 1.02 Permitted Uses — to allow accessory dwelling units (ADU) as a permitted use in the R-1, R-2, and B-1 Zoning Districts and to define accessory dwelling unit (ADU) in Appendix A, Part I, Section 5.02.

BACKGROUND:

In August of 2018, staff met with Ms. Thornhill to discuss the construction of an accessory dwelling unit on her property at 311 E Main Street currently zoned B-1, Local Business Mixed Use District. At that time it was identified that the current zoning ordinance allows garage apartments by-right but does not allow accessory dwelling units to be constructed that are not attached a garage.

Staff provided Ms. Thornhill with the option of applying for a zoning text amendment which would allow the applicant to request the ordinance be amended to include the use of accessory dwelling units. On October 30th, 2018 Ms. Thornhill submitted a zoning text amendment application asking staff to bring forward an amendment to allow accessory dwelling units within different zoning districts. The request was originally scheduled for consideration during the November 26th, 2018 Planning and Zoning Commission meeting and with the applicants’ approval was rescheduled for consideration during the January 28th, 2019 meeting.

APPLICANT REQUESTED AMENDMENTS:

Part I, (Sec. 5.02) - Definitions

(2)* Accessory Dwelling Unit (ADU): An ADU is a room or suite of rooms that is an accessory building for a single-family dwelling that is designed, built, rented, or let for occupancy as a home or a place of residence by a family or individual occupying the single-family dwelling unit to which it is an accessory building.

Part II, Division 2, (Sec. 1.02) – Permitted uses

(d.) Accessory dwelling unit (ADU).

*Addition of a definition would require renumbering of subsequent definitions in Appendix A of the zoning ordinance.

PLANNING AND ZONING COMMISSION RECOMMENDED AMENDMENTS:
During the Planning and Zoning Commission meeting on January 28th, 2019, the Commission unanimously voted to recommend approval of the proposed text amendment, as presented by staff, with the exception that no height restrictions be established.

The currently adopted Brenham Zoning Ordinance includes the following height restrictions language:

_No accessory structure or use shall exceed the height of the principal structure to which it is accessory or the height of an existing accessory structure or use on property immediately adjacent thereto. Whichever of the two is the greater height shall control the maximum allowable height of the subject accessory structure. Notwithstanding the provisions of this section an amateur radio tower designed in conformance with FCC regulations shall be permitted as an accessory use to a maximum height of sixty (60) feet._

The Staff recommendation includes the following height restrictions language:

_No accessory structure or use shall exceed the height of the principal structure to which it is an accessory. Notwithstanding the provisions of this section an amateur radio tower designed in conformance with FCC regulations shall be permitted as an accessory use to a maximum height of sixty (60) feet._

In summary, staff reviewed the existing Zoning Ordinance and determined that maintaining the restriction that no accessory structure or use could exceed the height of the principal structure was a favorable practice that would help preserve neighborhood integrity.

The Planning and Zoning Commission expressed that accessory dwelling units (ADUs), specifically garage apartments, in most cases exceed the height of the primary structure if the primary structure were a single-story home and the ADU were a two-story garage apartment. With their motion, the Commission stated in this particular situation an ADU exceeding the height of the primary structure was not harmful and should be permitted. Therefore, if Council were interested in upholding the Commission’s recommendation two options exist:

1. Approve the proposed text amendment with the complete removal of height restrictions on accessory structures and uses (including ADUs and garage apartments); or
2. Approve the proposed text amendment with the provision that accessory dwelling units attached to a garage may exceed the height of the principal structure if the principal structure is a single-story dwelling.

**STAFF ANALYSIS AND FINDINGS:**

The City of Brenham currently allows accessory structures and garage apartments by-right in the R-2, R-3, and B-1 zoning districts. A garage with living space or servants’ quarters is allowed by-right in R-1, R-2, R-3, and B-1 zoning districts. Such uses are currently subject to certain restrictions based on if the accessory structure is attached or detached to the main dwelling. Attached accessory structures, such as a carport structure, are subject to the same setback standards as the main dwelling unit. Detached accessory structures are subject to the following:

- Be located in the rear of the lot
- Be 3-feet from any side interior property line, alley or easement
- Be 5-feet from any rear interior property line
- Be 10-feet from the main building if larger than 100 square feet
- Adhere to the required side yard requirements for the principal building and rear yards of not less than ten feet that have living space
- Adhere to impervious coverage requirements (55% maximum)
The aforementioned development standards concerning garage apartments and accessory dwelling uses are referenced and cross referenced in four locations throughout the zoning ordinance. While considering the requested text amendment, staff identified a need to amend the ordinance such that all standards relating to the same land use type be referenced in a more concise manner for clarity and enforcement purposes. A more detailed analysis of the proposed housekeeping amendments are detailed below.

As stated by the applicant in the application, the current language is uncommon, limiting, and outdated. While garage apartments are currently permitted by-right with development requirements, accessory dwelling units that are not attached to a garage are not currently permitted by-right or by specific use permit in the City of Brenham. In simpler terms, in order to obtain a building permit for an accessory dwelling unit in Brenham, the unit is required to be attached to a garage.

Staff finds that an amendment to the zoning ordinance to allow ADU’s could be favorable to the community. Accessory dwelling units are commonly viewed as beneficial to communities and neighborhoods for many reasons, including:

- Provide a wider variety of housing options
- Allow a more efficient use of existing infrastructure
- Offer additional housing units at a lower cost of development
- Offer young adults and aging populations ability to live near family with added privacy
- Provide homeowners extra income

Accessory dwelling units can be beneficial to the community, tenants, and landlords alike, however factors such as size, location, parking, appearance, and compatibility should be considered. Some best practices adopted by other jurisdictions include adopting specific use standards related to:

- Architectural design
- Additional parking requirements
- Size restrictions (by square feet or bedroom)
- Owner occupancy
- Maximum unit occupancy
- Number of units per lot and/or impervious coverage restrictions
- Location of unit in relation to main dwelling unit and/or lot lines (setbacks)
- Water and sewer connections

PROPOSED AMENDMENTS (as supported by Staff):

Staff recommends approval of an amendment to the zoning ordinance to define and conditionally allow the use of ADU’s (based on zoning district) with the establishment of additional use-specific standards.

Approval of a Specific Use Permit is an existing procedure which identifies uses which may be appropriate within a given zoning district, but due to their location, function or operation, could have a potentially harmful impact on adjacent properties. Staff suggests allowing ADUs in residential zoning districts (R-1, R-2, and R-3) with prior approval of a Specific Use Permit. Specific Use Permits are considered by the Planning and Zoning Commission and City Council. Additionally, staff recommends allowing ADUs by-right in the B-1 Local Business/Residential Mixed Use District.

The following amendments are proposed to the definitions portion of the Zoning ordinance:

- Revise accessory building to:
  - Accessory Structure or Use: A subordinate structure located on the same lot as the main structure or a portion of the main structure, where the use of such structure is incidental and subordinate to the principal use.
• Establish accessory dwelling unit (ADU):
  o Accessory Dwelling Unit: A room or suite of rooms or secondary single-family dwelling unit within an accessory structure that is clearly incidental to a principal use, excluding two-family and multifamily dwellings and is permitted only in conjunction with the main structure. A guest house, mother-in-law quarters or garage apartment are examples of accessory dwelling units.
• Revise garage apartment to:
  o Garage Apartment: See “accessory dwelling unit (ADU)”.
• Remove Servants’ Quarters:
  o Servants’ Quarters: A servants’ quarters is an accessory building or portion of a main building located on the same lot as the principal building, occupied by such persons and their families as are employed full time in the home by the occupants of the principle residence.

The following amendments are proposed to adopt use-specific standards for accessory dwelling units and structures:

1. All detached accessory structures in any residential district shall be located in the rear yard (which is to the rear of a lot line connecting the midpoints of the two (2) opposite side lot lines) and shall have a side and rear yard of not less than five (5) feet.
2. No accessory structure or use shall exceed the height of the principal structure to which it is an accessory. Notwithstanding the provisions of this section an amateur radio tower designed in conformance with FCC regulations shall be permitted as an accessory use to a maximum height of sixty (60) feet.
3. All accessory structures or uses shall be subordinate to and supportive of the primary use and structure.
4. Additional standards pertaining to Accessory Dwelling Units (ADUs):
   a) Should the primary use be a single-family dwelling, the property owner’s primary residence shall be the single-family dwelling or accessory dwelling unit.
   b) An ADU must be designed and constructed keeping with the general architecture and building material of the principal structure.
   c) An attached ADU shall be subject to the regulations affecting the principal structure. A detached ADU shall have side yards of not less than the required side yard for the principal structure and rear yards of not less than ten feet.
   d) One (1) on-site parking space, located to the side or rear of the primary structure, shall be provided for the ADU in addition to the required parking for the principal structure.
   e) The maximum habitable area of an ADU is limited to either one half (1/2) of the habitable area of the principal structure, or one thousand (1,000) square feet, whichever is smaller.
   f) ADUs shall not be a HUD-Code manufactured home or mobile home.

PUBLIC COMMENTS:

The Notice of Public Hearing was originally published in the paper on November 15, 2018 for the November 26th Planning and Zoning Commission meeting. Due to the item being postponed for later consideration, an additional Notice of Public Hearing was republished on January 17th, 2019 for the January 28th, 2019 Planning and Zoning Commission meeting. Since the public notices were published, staff has received a citizen request for more information about the proposed amendments. Upon providing additional information the citizen stated that they were also interested in building an ADU and expressed support to adopt standards to allow ADUs.

During the Public Hearing portion of the Planning and Zoning Commission one person spoke in favor of the proposed text amendment, specifically in favor of the proposed use-specific standards.
STAFF RECOMMENDATION:

Staff recommends approval of the proposed text amendments as presented to the Planning and Zoning Commission on January 28, 2019, which includes height limitations on accessory structures and uses, and an ordinance to:

- Revise the existing definition and development standards concerning garage apartments;
- Adopt a definition for accessory dwelling unit (ADU);
- Delete the definition of servants’ quarters;
- Establish use-specific standards for the construction of an accessory dwelling unit (ADU); and
- Allow ADU’s by-specific use permit in the R-1, R-2, and R-3 districts, and by-right in the B-1 district.

RE: Request for abandonment of old alley

Dear Mr. Fisher

It has come to our attention that a piece of property that we own at the southeast corner of West First St and Jackson St has a 12’ alley running through the middle of two tracts we own. We use these two tracts very heavily six days out of the week for employee parking and delivery truck storage.

This letter is a formal request to have the City Council consider an official abandonment of the alley with the entirety of it to remain included in our property (see attached survey).

Thank you for your consideration. Please feel free to reach out to me for any additional information that could be used to assist in your decision. I can be reached at 979-251-0507.

Warmest Regards,

AGENDA ITEM DESCRIPTION: Discuss and Possibly Act Upon a Bid for City of Brenham Project No. 2017-15 Related to the 2018 Downtown Drainage and Sidewalk Project and Authorize the Mayor to Execute Any Necessary Documentation.

SUMMARY: On February 12, 2019, bids were opened regarding Downtown Drainage and Streetscape Improvements related to S. Park St and Church St. There were 4 bids received and bids were very competitive.

With this section of downtown growing it was decided by staff to correct old infrastructure related to drainage and add accessible streetscape amenities to promote growth. These improvements consist of inlets, increasing the drainage under the railroad right-of-way and placing drainage structures underground rather than allowing storm water to flow all the way down Park St. This project will also add sidewalks, lighting, and landscaping as seen in the downtown area. This will spur development that has been waiting for these improvements to occur.

These improvements will be funded with 2017 Certificates of Obligations at $302,000 with an additional $150,000 coming from BCDC dedicated towards the streetscape improvements portion. Total amount allocated was $452,000, which also covered engineering costs. With engineering coming in at $71,280 the remaining funds for construction was $380,720.

As seen on the bid tabulation, M&C Fonseca Construction Company Inc. from Granite Shoals, TX was the low bidder at $368,776.25 with the base bid. Due to staying within budget, we have decided not to award the alternate bid. The alternate bid consisted of additional sidewalk and handicap ramps near the intersection of Park St. and 2nd St. We can complete this in the future as this is in residential area at the end of Park St and will require coordination with those property owners.

Staff recommends awarding the 2018 Downtown Drainage and Sidewalk Project to M&C Fonseca Construction Company, Inc. in the amount of $368,776.25 for the base bid.
**STAFF ANALYSIS (For Ordinances or Regular Agenda Items):**

A. **PROS:** Right under budget and will improve this area greatly.

B. **CONS:** None at this point

**ALTERNATIVES (In Suggested Order of Staff Preference):**

City of Brenham Project No. 2017-15
City of Brenham, Texas

Dear Lori,

Bids for the above-referenced project were opened on February 12, 2019. Four bids were received with the resulting bid tabulation enclosed. The low base bid was $368,776.25.

M&C Fonseca Construction Company of Granite Shoals, Texas, was the apparent low bidder at $368,776.25. The bid included a bid bond for 5 percent and Addendum No. 1 was acknowledged.

Strand Associates, Inc.® has not had previous experience with M&C Fonseca Construction Company. After receiving several reviews from engineers who previously worked with them, no issues were found. Based on the information received from outside sources, Strand offers no objection to awarding the contract to M&C Fonseca Construction Company for this project.

We suggest that you consider evaluating M&C Fonseca Construction Company’s financial status prior to award and other information.

Sincerely,

STRAND ASSOCIATES, INC.®

Roddy J. Williams, Ph.D., P.E.

### AGENDA ITEM DESCRIPTION:
Discuss and Possibly Act Upon the Consent of City of Brenham, Texas to the Assignment of the Small Commercial Waste Collection Service (Non-Residential) Agreement Between the City of Brenham and Waste Connections Lone Star, Inc. (formerly known as Progressive Waste Solutions of TX, Inc.) and Authorize the Mayor to Execute any Necessary Documentation.

### SUMMARY:
On January 28, 2019, we were notified that Waste Connections (formally Progressive Waste) was interested in assigning the Brenham Small Commercial Waste Collection Service Agreement to Frontier Waste Solutions. This is due to a combination of changes with both Waste Connections and Frontier. Recently Frontier has taken over the City of Hearne and this is where Waste Connections has serviced the City of Brenham contract out of related to its home base. Waste Connections offered Frontier other contracts that were serviced out of Hearne and the City of Brenham was one of them and the largest customer.

City of Brenham staff is familiar with Frontier Waste Solutions as their Sales and Marketing Manager Brian Upton was the Sales and Marketing Manager for Progressive Waste when the 2016 contract was awarded. Brian was very service orientated and really took care of Brenham. We expect the same with Frontier. Frontier Waste Solutions currently serves 16 Texas cities with Liberty, West, Calvert, and Hearne being the largest. Frontier representatives have many years of experience in the Solid Waste business and in 2017 partnered together to create Frontier Waste Solutions.

This assignment will not change any aspect of our current contract it will only obligate Frontier to provide the same service and honor the terms of the current contract. The City of Brenham is well protected with the contract and both parties have the option to opt out with 90 days at any given point. The contract currently runs until March 2021.

Frontier has plans to use the current dumpsters, which are 3 yrs. old and they have 2 new trucks that will service Brenham. Both Waste Connections and Frontier would like to make the assignment effective March 11th in order to begin a new week.

Staff does not have an issue with this assignment.
